

The one

*oh woah oh woah oh woah
oh woah oh woah oh woah
I can be the one one one for you*

*we all feel a bit insecure sometimes
lonely and tired and everything feels wrong
(ooo woah ooo woah)
the smallest things can make your whole day
just a little 'Hi!' and then I feel okay*

*cause when we all reach out and join our
hands
we can try our best to all be friends
We are stars in the sky on the darkest nights
we shine brighter*

*And we're all singin'
one two three
come along join me
just let go and dance to the beat
(oh woah oh woah)
one step forward
let me be your friend
and I can be the one for you*

*oh woah oh woah oh woah
oh woah oh woah oh woah
I can be the one one one for you
oh woah oh woah oh woah
oh woah oh woah oh woah
and you can be the one one one for me*

*we're all different but we're still the same
it doesn't even matter difference is okay
and when we stand together we are strong
we can move mountains
we can right the wrongs*

*cause when we all reach out and join our
hands
we can try our best to all be friends
we are stars in the sky on the darkest nights
we shine brighter*

*and we're all singin'
one two three
come along join me
just let go and dance to the beat
(oh woah oh woah)
one step forward
let me be your friend
and I could be the one for you*

*oh woah oh woah oh woah
oh woah oh woah oh woah
I can be the one one one for you
oh woah oh woah oh woah
oh woah oh woah oh woah
and you can be the one one one for me*

(Instrumental)

*cause when we all reach out and join our
hands
we can try our best to all be friends
we are stars in the sky that shine so bright for
eachother*

*and we're all singin'
one two three
come along join me
just let go and dance to the beat
one step forward
let me be your friend
and I could be the one for you*

*oh woah oh woah oh woah
oh woah oh woah oh woah
I could be the one one one for you
oh woah oh woah oh woah
oh woah oh woah oh woah
and you can be the one one one for me*
