Sum	15531	41128	reell pris AUP for trinnpisene
-----	-------	-------	-----------------------------------

Kommentarer til prisene:

Helseforetakene har forhandlet rabatter med sykehusapotekene, slik at apotekavansen trolig er lavere.

I motsetning til i trinnpssystemet er det lave volum for mange LIS-pakninger slik at LIS-prisene fra leverandørene neppe er høyere enn priser til grossist for 36 trinnpisvirkstoff er også i LIS-anbudene. Desimaler er fjernet etter utregning.

Produkter som er på trinnpislisten og på LIS.
